

B-67789

Magnetic Nutsetter 10mm

Magnetic Nutsetter is equipped with a magnetic feature, 30 pcs

A 10mm magnetic 10mm nut setter, designed for driving hex-head nuts and screws.

USER BENEFITS

- Magnetic tip: A powerful magnet in the socket holds fasteners securely, improving efficiency and preventing dropped screws.
- Size: 10mm socket size.
- Overall length: 50mm.
- Shank: 1/4-inch hex shank, compatible with standard impact drivers and power drills.
- Durability: Impact-rated construction, suitable for high-durability accessories for professional use.
- Bulk packaging: The nut setters are supplied in bulk packs, sometimes referred to as a "candy jar".
