| Size | 8mm |
| Qty | 50 |
| Length | 50mm |
| Package Type | Candy Jar |

USER BENEFITS

- **Magnetic tip:** Features a strong magnetic end to securely hold screws in place during use, which prevents drops and improves work efficiency.
- **1/4-inch hex shank:** Designed with a 6.35mm (1/4-inch) hex shank, making it compatible with most standard impact drivers and drills.
- **8mm socket:** The 8mm socket is ideal for driving common hex-headed screws and nuts, such as tekscrews.
- **50mm length:** With a 50mm total length, the nut setter offers a good balance of reach and control.
- **Durable construction:** Built for heavy-duty use to withstand the demands of construction and roofing applications.
- **Bulk packaging:** The product is sold in a box of 50 pieces for convenience and value on larger jobs.Â
