## Battery LXT® 5.0Ah

Li-ion • 18 V • 5.0Ah • BL1850B

**BL1850B 5.0Ah Li-ion battery for 18V LXT® tools**

Makita BL1850B 18V LXT Lithium-Ion 5.0Ah Battery is a high-capacity, durable power tool battery featuring an integrated LED charge level indicator. It offers extended runtime and is compatible with the extensive Makita 18V LXT cordless tool line-up.

### TECHNICAL

### SPECIFICATIONS

Nominal Battery Voltage	18 V
Battery Capacity	5,0 Ah
Energy Capacity	90 Wh
Battery Chemistry (Ni-Cd / Ni-MH / Li-ion)	Li-ion
Product Dimensions (L x W x H)	113 x 75 x 62 mm
Net weight	0,63 kg

### USER BENEFITS

- **Longer Runtime:** The 5.0Ah capacity provides significantly extended usage time compared to lower-capacity models, offering up to 65% more run time per charge than the BL1830 3.0Ah battery.
- **Rapid Charging:** A full charge takes approximately 45 minutes when using a Makita rapid optimum charger.
- **Consistent Power:** The battery delivers consistent power even in extreme temperatures and features sixteen contact terminals for a stable connection with the tool.
- **Job Site Durability:** An impact-resistant outer case and a shock-absorbing inner-liner help protect the internal cells from damage.
- **STAR Protection Computer Controls:** This technology facilitates communication between the tool and battery to prevent overloading, over-discharging, and overheating, contributing to overall longevity.
- **Minimal Self-Discharge:** The battery resists self-discharge, ensuring it's ready for use even after storage.
- **Integrated LED Indicator:** An L.E.D. indicator allows users to easily check the remaining charge.
- **Wide Compatibility:** The BL1850B
- is compatible with all Makita 18V tools featuring the Star Symbol and/or a yellow battery receiver.
- **Lightweight Design:** Weighing around 1.4 lbs (0.63 kg), the battery helps reduce user fatigue.
