USER BENEFITS

- Integrated cyclone unit: The attached cyclone unit separates fine dust particles from the air, minimizing filter clogging and maintaining strong suction power.
- 40V max XGT brushless motor: This provides a high suction power and efficient performance with a low noise level.
- Multiple speed settings: It has four different power modes to choose from, allowing you to select the right amount of suction for various tasks.
- Memory function: The vacuum cleaner can remember the last power mode used, so it will start in that same mode when turned on again.
- LED light: An LED work light illuminates the cleaning area and also acts as a low battery indicator.
- Interchangeable dust collection: It can be used with either a paper disposable dust bag or a reusable cloth dust bag.
