

Cordless Magnetic Light LXT

DML819

Product Description

• 18V LXT • XPT

Cordless Magnetic Light powered by 18V LXT® Li-Ion battery

Delivering up to 1,200 lumens of bright illumination, DML819 Magnetic Light is designed to provide reliable lighting wherever the job takes you. Built for convenience and versatility, this compact work light features powerful magnets on the base, allowing it to securely attach to steel surfaces for true hands-free lighting.

Product Features

- Up to 1,200 lumens of bright LED illumination
- Magnetic base for secure attachment to steel surfaces
- 180° vertical fold and 300° horizontal rotation for precise lighting control
- 3-stage brightness settings
- Diffusing lens reduces glare and shadows
- Up to 18 hours runtime with a 5.0Ah battery
- Smart dimming feature warns when battery is running low
- Durable design with XPT for improved dust and water resistance

Product Specifications
