

D-31653

Double-Ended Screwbits PH2-PH2

A double-ended magnetic Phillips bit with a size of PH2, 100 pcs

It is 65mm long and designed for use with electric screwdrivers and drills. Made from alloy steel, the bits offer high durability for professional and demanding applications.

TECHNICAL

SPECIFICATIONS

Size	PH2-PH2
Qty	100
Length	65mm
Package Type	Candy Jar

USER BENEFITS

- Double-ended design: With a PH2 tip on both ends, the bit offers extended life and convenience for quick changes.
- Magnetic tip: The magnetized tips hold screws securely in place, improving accuracy and efficiency, especially in hard-to-reach or overhead areas.
- High-quality material: Forged from tough alloy steel, the bits are built to be more durable and long-lasting than standard chrome vanadium steel.
- Compatible with power tools: The standard 1/4-inch hex shank allows for use with most electric drills, impact drivers, and screwdrivers.
- Available in bulk: Some retailers offer the D-31653 in bulk packs of 100 pieces.
