

D-71118

TCT Hinge Drill Bit 20x77 mm

20 x 77 mm TCT Hinge Drill Bit

A Makita 20mm TCT (tungsten carbide tip) concealed hinge cutting drill bit.

TECHNICAL

SPECIFICATIONS

Diameter (D) 20mm
Overall length 77mm
Working length 77mm
Shank size 6.35mm
Quantity 1pc

USER BENEFITS

- Tungsten Carbide Tips (TCT): The bit uses premium TCT materials, which provide exceptional durability and extend the cutting tool's life.
- Brad point centring tip: A sharp, short brad point tip guides the bit, preventing it from drifting during the initial drilling, which ensures accurate hole placement.
- External scribing cutters: Two external scribing cutters are designed to pre-cut the hole's edge, preventing splintering and ensuring a clean finish.
- Smooth, flat-bottomed holes: The two TCT cutters are engineered to create a perfectly flat base inside the hole, which is necessary for properly seating concealed hinges.
- Versatile application: The bit is suitable for a wide range of materials, including wood, chipboard, plywood, and laminated MDF.
- Efficient debris removal: The bit design helps to effectively remove debris from the cutting area, leading to smoother and faster drilling.
