

DCB200BZ 14,4V / 18V • 70 x 140 cm

Battery-powered thermal blanket heats up quickly

The battery-powered thermal blanket heats up quickly and is easy to attach either to the shoulders or to the waist. Pressing the power switch for a few seconds turns the power on and off. The blanket has three temperature settings and a pocket for the battery adapter. The blanket is machine washable, and be sure to remove the battery adapter before washing. Tool only, battery and charger not included.
