

Driver Drill LXT

DDF491ZJ01

Product Description

18V LXT • BL • XPT • 13 mm
Cordless Driver Drill that comes with Four Attachments.
DDF491 is a 13 mm cordless driver drill with four interchangeable tool-head attachments that can be changed without tools. It can be used for conventional drilling and screwdriving as well as corners, restricted spaces and other difficult-to-access locations.

Product Features

- Powered by an 18V LXT Li-Ion battery
- Comes with four tool head attachments interchangeable without tools, designed for versatility in tight spaces
- Can also be used without any of the four attachments; a driver bit (C-form) can be held securely by the magnet built into the bit holder
- Angle attachment accepts connection of Drill Chuck Attachment, Hex Bit Attachment and Offset Attachment
- Brushless motor provides longer work hours per charge and extended tool life
- 20-stage torque settings allow fine adjustment to suit the task
- Two action modes are available: Drilling and Screwdriving
