

Brushless Trimmer LXT®

DRT52

18V • 6 mm • 30,000 min-1

Model DRT52 is a cordless trimmer powered by 18V LXT Li-ion battery

This tool features a high-efficiency brushless motor for powerful performance and longer runtime. A soft-start function ensures smooth operation, while a convenient lock/unlock button and an LED indicator provide added safety and ease of use. The durable housing and base are crafted from high-quality plastic for a lightweight yet robust design.

TECHNICAL SPECIFICATIONS

Collet Size

6 mm

No Load Speed

30,000 min-1

Base Shape

Square (82 x 90mm)

Base Material

Plastic

Housing Material

Plastic

Dimensions (L x W x H)

w/BL1860B: 134 x 90 x 220 mm

Net Weight

0.92 kg (without battery)

USER BENEFITS

- Safe operation with soft start and anti-restart features that minimize the risk of accidental starts.
- Smooth, easy depth adjustments for precise finishing on every trim.
- Comfortable handling thanks to a lightweight (0.92 kg without battery) and ergonomic grip.
- Clear visibility for highly accurate work with the transparent base design.
- Versatile accessory compatibility, including plastic and tilt bases, trimmer guides, and straight guide assemblies.
- Comes with standard equipment such as wrenches, template guide, chip deflector, and carry case, facilitating immediate use and simple storage.
