USER BENEFITS

- High Torque Performance: Up to 1,700Nm nut-busting torque and 1,350Nm maximum fastening torque for heavy-duty applications.
- Long Anvil Design: 3/4" square drive with long anvil, ideal for hard-to-reach spaces and deep socket work.
- Four Selectable Power Modes: Three auto-stop modes (forward/reverse) for efficient bolt/nut tightening and loosening, plus a max power mode.
- Variable Speed Trigger: Adjust power easily for different tasks, with four electronic speeds from soft (800 RPM) to max (1,800 RPM).
- Full Speed Mode Button: Achieves maximum speed with reduced trigger pull for improved productivity.
- Advanced Brushless Motor (BL): Ensures high efficiency, longer run time, and greater durability.
- eXtreme Protection Technology (XPT): Enhanced dust and water resistance for reliable operation in harsh jobsite environments.
- Constant Speed Control: Maintains stable torque throughout the battery cycle (except for reverse/max forward).
- Twin Built-in LED Lights: Improves visibility for precise fastening in low-light areas.
- Ergonomic & Durable Design: Large, two-finger trigger for comfortable continuous operation; robust construction, weighing 3.5 kg (without battery).
- Accessory Compatibility: Compatible with a wide range of 3/4" impact sockets and optional extension handle for extra reach.
