

PRUNING SHEAR LXT®

DUP181

18V LXT • BL • XPT

Cordless Pruning Shear powered by 18V LXT® Li-Ion battery

Makita DUP181 is a high-performance cordless pruning shear powered by the 18V LXT Li-Ion battery platform, designed for professional orchard and garden maintenance.

TECHNICAL

SPECIFICATIONS

Max cutting capacity	30 mm
Time from fully open to fully closed	0.34 sec
Circumference of grip portion	125 mm
Dimensions (L x W x H)	300 x 75 x 113 mm (with BL1820B)
Net Weight	0.76 kg (without battery)

USER BENEFITS

- **Efficient cutting performance:** Max cutting capacity of 30 mm with a fast cycle time of 0.34 seconds from fully open to fully closed increases work speed on both thin and thick branches.
- **Reduced fatigue:** Lightweight 0.76 kg body and slim 125 mm grip circumference support comfortable, prolonged use in professional pruning applications.
- **Customizable for different branches:** Four adjustable blade opening angles (10 mm, 18 mm, 25 mm, 30 mm) improve efficiency by matching jaw opening to branch size.
- **Precise, safe operation:** Motor sensor provides smooth blade tracking with excellent trigger responsiveness even at low speeds, plus brake and torque limiter for added protection.
- **Easy maintenance and durability:** Blade oil can be applied from outside without disassembly, and high water-resistance helps protect internal components in outdoor environments.
- **Flexible depth control:** Five-step cutting depth adjustment lets users fine-tune cut depth, especially after blade replacement.
- **Smart power management:** Automatic power-off after 5 or 15 minutes of inactivity helps save battery and enhances safety.
- **Convenient standby mode:** Standby function allows the blade to be fully closed for safe temporary storage in a holster, resuming work quickly with simple trigger actions.
- **Expandable reach:** Optional long handle attachment enables easy pruning in hard-to-reach areas without ladders.
- **Ready-to-work accessories:** Supplied with blade cover, hex wrench, and socket wrench, and compatible with replacement shear blade U/L sets.
