USER BENEFITS

- AVT (Anti-Vibration Technology) ensures extra-low vibration performance
- Compact power with less weight
- Constant speed control automatically applies additional power to the motor to maintain speed under load to complete the most challenging jobs
- Easy-to-operate slide switch
- LED light illuminates the work site
- One-touch sliding chuck for easy bit changes
- Soft start suppresses start-up reaction for more control and better accuracy
- Variable speed control dial enables user to match the speed to the application for greater versatility
