

MP001G - Inflator XGT ®

- 40Vmax • 1,110 kPa • 161 PSI

Cordless inflator ideal for inflating large tyres including trucks, tractors, cars and bicycles

MP001G is a handy inflator, that has been highly wished for. It's no wonder, as it can reach a max air pressure of 1,110 kPa and an air discharge amount of 24L/min - cordlessly. It comes with various adapters, so filling large tyres, sport balls and beach toys, is very easy. The inflator has many convenient features. A desired air pressure can be set and once it has been reached, the machine automatically stops. It also has a thermostat preventing it from overheating. Standard Equipment: - British Adapter - French Adapter - Ball Adapter - Swim Ring Adapter

TECHNICAL

SPECIFICATIONS

■ USER BENEFITS

- Digital pressure gauge with added convenient functions
- Excess air can be released by pressing and holding the air release button
- The machine stops automatically when preset target pressure is reached
- 3 Inflation modes (High speed, Low speed or Ball modes)
- The machine remembers the pressure setting last time you power off
- eXtreme Protection Technology (XPT) is engineered for improved dust and water resistance for operation in harsh conditions
- LED job light for easy operation in the dark
- Thermostat protects the machine from overheating
- Main power switch with auto power off function and trigger switch
- Main power switch with auto power off function and trigger switch
- Ergonomically designed handle with rubberized soft grip provides increased comfort
- Battery protection circuit protects against overloading, over-discharging and over-heating
- Increased air discharge amount drastically shortens the time to inflate large tires of tractors, trucks, and more
