189 mm

1,081 - 1,435 x 204 x 361 mm

3.7 kg (w/o Battery)

USER BENEFITS

- Wobble suppression and Constant speed control
- The springy splash guard absorbs and suppresses the wobble of the brush/pad caused by the flexing of the brush/pad and unevenness of the floor surface, making it easier to clean the targeted area.
- Constant speed control enables uniform polishing operations and reduces cleaning inconsistencies.
- Soft start reduces startup recoil.
- Brush/Pad replacement without direct contact
- Installation: Align the brush/pad placed on the floor surface with the tip of the machine, then press the tip against the floor surface, and then start the machine.
- Removal: Select the accessory removal mode, then press the brush/pad against the floor surface, and then pull the switch trigger.
- 3-speed settings - selectable from three speed modes according to the work environment and conditions.
- Wide range of accessories
- LED job lights
