40Vx2 ROTARY HAMMER BL XGT

Cordless rotary hammer powered by two 40Vmax XGT Li-Ion batteries

Powerful Cordless Rotary Hammer delivers the power, speed, and run-time for corded demands, without the cord. More than just a padded handle, AVT is an internal counterbalance that uses air pressure to move counterweight pistons in the opposite direction of the drive piston to actively reduce vibration. "Soft no-load" function automatically reduces the speed of the motor when idling to help increase tool life and performance. Extreme Protection Technology engineered to channel away dust and water for increased durability. Auto Wireless Start Function Connects to compatible dust extractor via Bluetooth. Dust extractor starts automatically when the tool starts. Also dust extractor stops on its own when the tool is in rest.

USER BENEFITS

- Active Feedback sensing Technology (AFT) turns the motor off if bit rotation is suddenly forced to stop
- Anti-Vibration Technology (AVT) is a synchronized, three-component system that more effectively reduces vibration
- Auto-start Wireless System (AWS) connects to compatible vacuum cleaners with Bluetooth
- Twin LED lights with preglow and afterglow functions for better illumination and more accurate work eXtreme Protection Technology (XPT) is engineered for improved dust and water resistance for operation in harsh conditions
- Depth gauge for increased drilling consistency
- Torque limiting clutch engineered to minimize gear damage by automatically disengaging gears if the bit binds
