

Rechargeable Red Multi-line laser CXT®

SK700DZ

Rechargeable red multi line laser powered by 12Vmax CXT Li-Ion battery

The SK700DZ is a Rechargeable red Multi-line laser CXT® that offers up to 22 hrs (approx) runtime with BL1041B.

TECHNICAL

SPECIFICATIONS

AVERAGE ACCURACY (2s) OF LENGTH
MEASUREMENT

±2mm / 10m

LEVELING RANGE

±4 °

Nominal Battery Voltage

12 V

Usage temperature

-10 - 50 °

International Protection Class (IP)

IP54

Laser Class

2: 635nm

Battery Chemistry (Ni-Cd / Ni-MH / Li-ion)

Li-ion

Product Dimensions (L x W x H):

168 x 104 x 153 mm

USER BENEFITS

- Compact and lightweight design
- XPT (Extreme Protection Technology) is engineered for improved dust and water resistance for operation in harsh job site conditions
- Three full 360-degree lines can be projected
- 4 Horizontal lines & 4 Vertical lines
- Dust and water resistance with IP54 rating for increased durability
- Laser lines can keep being projected over a long continuous operation
