

Rotation Laser

SKR301

0 - 535 rpm • ± 1 mm / 10 m • $\pm 8^\circ$

Precise and easy-to-use rotary laser level

A handy rotary laser level for horizontal and vertical measuring. Suitable for precise measurement of elevations, inclines and heights, or verification of the straightness of tiling or walls.

TECHNICAL

SPECIFICATIONS

MEASURING RANGE	\varnothing 300 m
AVERAGE ACCURACY (2S) OF LENGTH MEASUREMENT	± 1 mm / 10m
LEVELING RANGE	$\pm 8^\circ$
BATTERIES	2
LASER HEAD ROTATION SPEED	0 - 535 min? ¹

USER BENEFITS

- Accuracy +/- 1mm @ 10m
- Automatic operation in both horizontal and vertical modes
