

CORDLESS CHAIN SAW

UC003G

40Vmax • 29.0 m/s • 500mm (20")

Powerful XGT® Chainsaw with high chain speed for demanding applications.

The XGT® battery-powered chainsaw delivers high chain speed for fast, efficient cutting. It features a main power switch with an auto power-off function to conserve battery life and prevent accidental start-up.

TECHNICAL

SPECIFICATIONS

Chain Type [Gauge]	95TXL / 22BPX [1.3 / 1.6 mm (0.05 / 0.063")]
Guide Bar Length	500 mm
Chain Speed (at no load)	0 - 20.0, 24.5, 29.0 m/s
Chain Oil Tank Volume	260 mL
Uncertainty (K) for Noise*	3 dB (A)
Dimensions (LxWxH)	449 x 232 x 280 mm (w/o Guide Bar, Saw Chain)
Net weight	4.5 kg (w/o Guide Bar, Saw Chain and Battery)

USER BENEFITS

- **Petrol-Class Performance:** Delivers the high cutting power and torque of a 53cc-class gas engine chainsaw, allowing it to tackle heavy-duty jobs typically reserved for large petrol saws.
- **High-Speed Cutting:** Achieves an impressive maximum chain speed of up to 29.0 m/s (meters per second) for highly efficient felling and rapid cuts.
- **Long Runtime:** Capable of approximately 28 cuts through tough 400mm cedar logs on a single charge when using a BL4080H 8.0Ah battery.
- **Variable Speed Control:** Features three different chain speed modes, allowing the operator to fine-tune the performance for specific tasks, from felling large diameter logs to quick site clearances.
- **Durable & Weather Resistant:** Built with IPX4 weather resistance and Makita's eXtreme Protection Technology (XPT), ensuring reliable operation even in challenging rain and dust conditions.
- **Enhanced Safety:** Includes robust safety features such as a front-hand guard, chain brake, captive nuts to prevent loss during maintenance, and a metal spike bumper for secure cutting control.
- **User-Friendly Maintenance:** Designed for convenience with tool-free air filter access for fast cleaning and maintenance, and a large oil tank cap for easy refilling.
- **Smart Overload Management:** The saw restarts immediately after recovering from an overload situation, preventing downtime and maintaining work momentum.
- **Professional Design:** Features a heavy-duty 500mm (20") guide bar, a highly visible felling line for cutting precision, and easy-to-read status LEDs and chain speed indicators.
