

Chain Saw XGT

UC030G

40V MAX XGT • BL Motor • Wet Guard • IPX4M

Efficiency equal to or superior to that of 50cc-class Engine Chain Saws

The XGT® 40Vmax battery-powered chainsaw delivers professional-grade performance with the power equivalent to a 42 mL class engine chainsaw. Built for demanding tasks, it's the ideal choice for construction sites, landscaping projects, and garden or cottage maintenance.

TECHNICAL

SPECIFICATIONS

Chain Type [Gauge]	95TXL / 22BPX [1.3 / 1.6 mm (0.05 / 0.063")]
Guide Bar Length	500 mm
Chain Speed (at no load)	0 - 20.0, 24.5, 29.0 m/s
Chain Oil Tank Volume	260 mL
Uncertainty (K) for Noise	3 dB (A)
Dimensions (LxWxH)	449 x 232 x 280 mm (w/o Guide Bar, Saw Chain)
Net weight	4.5 kg (w/o Guide Bar, Saw Chain and Battery)

USER BENEFITS

- Fast acceleration in response to trigger operation enables smooth, continuous cutting tasks like limbing
- ⌘ Selectable chain speeds (ECO/Medium/High) with variable speed control by trigger and a mode memory function
- ⌘ When excessive force is applied, the tool slows down, making it easy to adjust the load on the cutting edge
- ⌘ Enhanced operability with intuitive icons, bright LEDs, and responsive buttons
- ⌘ IPX4M-rated for use in rainy conditions
- ⌘ A shorter distance between the handle and hand guard allows quick and easy brake release
- ⌘ The air filter cover can be removed without tools, making cleaning easy and keeping debris out
- ⌘ Improved operability with a redesigned lock-off lever and a 5-minute auto shut-off
