

ADP07

EN AC Power Adapter

English Specifications

Model:	ADP07
Input voltage	A.C.100-240V
Input AC frequency	50/60Hz
Output voltage	5.0V
Output current	1.0A
Output power	5.0W
Average active efficiency	73.6%
Efficiency at low load (10%)	64.6%
No-load power consumption	0.075W

- Manufacturer reserves the right to changes specifications without notice.
- Specifications may differ from country to country.

SAVE THESE INSTRUCTIONS - This manual contains important safety and operating instruction for AC adapter. Before using AC adapter, read all instructions and cautionary marking on AC adapter. **CAUTION** - To reduce risk of electric shock, fire, malfunction or personal injury, do not use for other manufacturer's product. •This AC adapter is intended for using MAKITA built-in battery products and/or USB powered products only. •Handle the AC adapter carefully. If dropped or hit against something, the AC adapter may be deformed, cracked or damaged. •Use a power source with the voltage specified on the nameplate of the AC adapter. •Do not expose AC adapter to rain or snow. •Do not disassemble the AC adapter. •Charge away from volatile, flammable materials such as gasoline, paint, gas, adhesive, etc. •Unplug USB cable/AC adapter if you are not going to use it for a long period. **Symbols** - Makita AC adapters are indicated with symbols. Be sure that you understand their meaning before use. Meaning of Symbols (1 - 4): 1. Read instruction manual. 2. Double Insulation 3. Indoor use only 4. Only for EU countries Do not dispose of electric equipment together with household waste materials! In observance of the European Directive, on Waste Electric and Electronic Equipment and its implementation in accordance with national law, electric equipment that have reached the end of their life must be collected separately and returned to an environmentally compatible recycling facility.
