One Battery
Endless Possibilities

LITHIUM-ION Battery
LONGER RUN TIME

Constant power and run time protect the machines against overload, over-discharge, and overheating

LITHIUM-ION Charger
OPTIMIZE CHARGING SYSTEM

The Makita Rapid Optimum Charger communicates with the battery's built-in chip throughout the charging process to optimize battery life by actively controlling current, voltage and temperature. Built-in fan circulates air through the battery during the charging process to cool the battery for faster charge time

Robotic Cleaner

Makita's Intelligent Robotic Cleaner powered by 18V LXT battery. Designed to automatically clean large spaces in commercial applications. Innovative robotic guidance technology guarantees reliable task automation and increases productivity

DRC200 Cordless Li-ion Robotic Cleaner

For commercial and industrial use

18v LITHIUM-ION | LXT | BL MOTOR | RoboPRO | **2.5L** dust capacity

Dust Box with 2.5L capacity
Easily accessible large dust box ensures ample capacity for commercial applications

Dual compartment structure for small and large debris

Large Side brush + power brush
Side brushes enable to clean alongside walls, around obstacles or tight corners

upto **200**minutes
*On hard floors in "Main Brush plus Vacuum" mode using two 18V LXT 5.0Ah batteries

Runs with two batteries parallelly
When the first battery is depleted, the machine automatically switches to the second battery

Clean about **2-1/2** tennis court
about 500m² with two 18V LXT 5.0Ah batteries

Boundary line tape
Boundary line mode prevents the vacuum from traveling into unwanted zones when a boundary tape line is placed

Boundary line tape
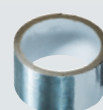

(15m roll)

BOUNDARY TAPE PART NO: SH00000231

Cruise Mode functionality combined with multiple detection sensors allow the robotic Vacuum to efficiently navigate and perform complete coverage of floor space

PATTERN MODE
For cleaning wide spaces with fewer obstacles, like warehouses, or long corridors

RANDOM MODE
For cleaning spaces with many obstacles, like office spaces or gyms

Specification

Continuous use (minutes)	120min (with BL1830B x 2) / 200min (with BL1850B x 2)
Max cleaning area	300m² (with BL1830B x 2) / 500 m² (with BL1850B x 2)
Max running speed	0.3 m/sec
Tank	2.5L
Dimensions (L x W x H)	460x460x180mm
Net weight	7.8kg

Upright Cleaner

Clean more without a cord with the 18V X2 LXT Brushless 5L HEPA Filter Upright Vacuum. This is Makita's first cordless upright vacuum and provides high performance in commercial cleaning applications. Ideal for rug and carpet cleaning

DVC560 - LXT Cordless Upright Vacuum Cleaner

Ideal for Carpet and Rug Cleaning

18v + 18v → 36v LITHIUM-ION | **LXT** | **BL MOTOR** | **HEPA filter** | **5.0L** dust capacity

Quiet operation allows for use in noise-sensitive environments such as office, hospital and more.

Powerful suction
achieved with two brushless motor One for vacuuming dust and the other for rotating brushroll

3-speed power selection
(high/ medium/low) for efficient operation

High dust pick-up rate with
Efficient two stage HEPA filter captures 99.97% of particulates .3 microns and larger

Tool-less and easily accessible brush roller for easier removal of hair and clogs

Cleaning in corners or confined spaces using attachments

with corner nozzle | with round brush

with aluminium pipe

4-stage brushroll height
from long pile carpet

to hard floor, short pile carpet
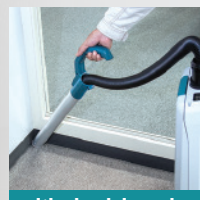

90° range of operation
Adjusts easily to a horizontal position for cleaning under furniture

Convenient onboard storage of attachments @ backside of the vacuum

Front bumper protects wall and furniture surfaces from scratches

The side brush is convenient for cleaning the corner of a wall

Specification

Stick Type Cleaners

Makita Cordless Compact Vacuums are high performance, efficient solutions for quick clean-ups. Their compact, versatile designs are ideal for multiple applications.

Cordless Stick Type Cleaners

Compact / Lightweight / High Power / Low Noise / Easy to use

18V LITHIUM-ION LXT
DCL281 / DCL180

12Vmax LITHIUM-ION CXT
CL108FD / CL106FD

Li-ion G-SERIES
CL183D

High Power / Compact / Lightweight / Low noise

Ideal for residential & commercial spaces like shops, offices, hospitals, schools, transport vehicles and home use.

Brushless Motor
Provides High Power | High Performance | High Durability
(for DCL281)

HEPA Filter provides high filtration rate of 99.97%
(Standard with DCL281, optional for other stick cleaners)

Push Button
with 3-speed power selection (high/medium/low) and On /Off function
(for DCL281/CL108FD)

LED joblight
With battery exhaust notification
(Flashes when the battery capacity becomes low)
(for DCL281/CL108FD/CL106FD)

Pipe lock system
Pipe is fixed with the locking mechanism to prevent it from accidentally coming off
(for DCL281)

Capsule Type
Quick dust disposal
No need to use paper bag

Cyclone attachment

Designed to expand the capacity to collect debris

- Powerful cyclonic action captures up to 90% of dust particles before entering the main dust box
- Reduces the frequency of emptying the main dust box
- Enhances the life of filter
- Maintain consistent suction power

One-touch release for easy disposal of debris

Easy disposal of debris

• Durable construction of high quality materials for long life

Cyclone Cleaner

The Makita 18V LXT Lithium-Ion Brushless Cordless Cyclonic Cleaner is a portable and powerful cleaning solution. Cyclonic filtration system collects dust, separating the large debris particles in the dust cup and filtering micro particles through the HEPA filter

DCL501 Cordless Li-ion Cyclone Cleaner

For commercial and residential use

18v LITHIUM-ION · **LXT** · **BL MOTOR** · **HEPA filter**

Long lasting and powerful suction

Continuous run time increased due to Powerful Brushless Motor

77 min. (low mode)
with 18v Li-ion 6.0Ah battery

Advanced Filtration system with cyclone separation

Cleaner has the advanced Cyclonic filtration system with HEPA filter collects large and small dust particles efficiently
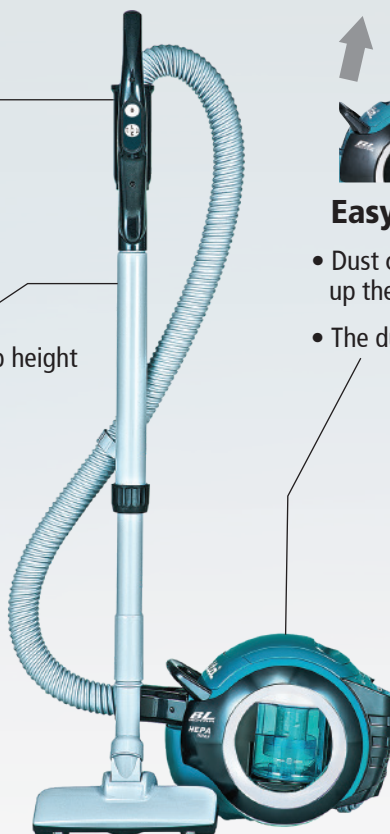

High / Low Power selection

Dust cup

Easy dust disposal

- Dust cup can be removed for easy dust disposal simply by pulling up the cup release lever then by pushing the release button
- The dust cup and the filter are washable in water

Telescopic pipe

Can be extended to allow for grip height adjustment to suit users height.

Warning lights

1. Orange LED indicator for filter cleaning warning
2. Red LED indicator for battery capacity warning

Filter cleaning lever

After every use, simply move the lever side to side to remove dust from the filter.

Specification

Backpack Cleaner

Cordless Backpack Vacuums are portable and weigh less but powerful in performance. This compact clean-up solution eliminates extension cords and allows access to hard-to-reach spaces. Select from different capacity options based on your cleaning job needs

DVC660 Cordless Li-ion Backpack Vacuum Cleaner

Powerful, compact and portable clean-up solution

18v + 18v → 36v LITHIUM-ION | **LXT** | **BL MOTOR** | **HEPA filter** | **6.0L** Large dust capacity

Quiet operation achieved with noise reduction construction

Automatic self-cleaning filter

Dust that tending to clog filters actuated automatically due to vibration or pulling down lever manually

Durable 32mm - 1m hose
(standard)

Extension length 590-942 mm

HEPA filter

Two-stage HEPA filtration system that captures 99.97% of 0.3 micron and larger particles. Also extends the life of the main filter.
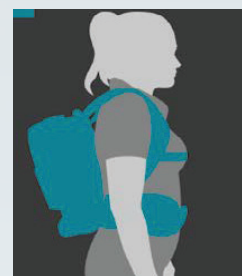

Aluminium telescope pipe with lock system
(standard)
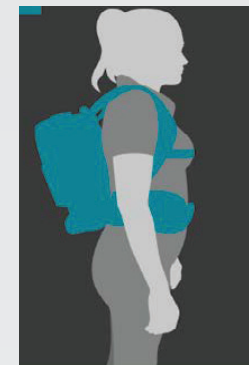

prevents the pipe unintentionally coming off.

Ergonomic, lightweight & compact design

Easy to carry lightweight (6.7 kg) comes with Padded shoulder straps and waist belt with multiple adjustments for improved fit and comfort

Thin wide floor nozzle
(standard)

Access hard to reach spaces and swivel joint with wheels for increased maneuverability

Push button power selection controller attaches to the waist belt of the harness (max/high/normal) with Built-in L.E.D. on the controller illuminates the work area.

Easily accessible side loading batteries for added convenience

Dust Class - Makita Vacuum Cleaners

Hazardous dust have been categorized into 3 (three) classes, namely, Class L, Class M and Class H.
The vacuum cleaners suitable for each of dust class have been defined by this regulation as follows:-

Dust class	Requirement		Permeability of limestone (marble) particles having a diameter of 5 microns or less	
H VC3211H	• Air flow sensor • Filter protection structure *1 • Structure that requires a tool for filter removal/installation *2 • Structure that protects users from exposure to dust when emptying dust bag *3		**less than 0.005%**	1* Filters should be protected from sharp objects such as nails when they are accidentally sucked up 2* Filters loaded with dust should not be easily removed. 3* Dust should be prevented from flying around when emptying dust bags or replacing fillters
L DVC750L, DVC864L, DVC860, DVC154L DVC`150L / VC3210L VC2000L	**NA**		**less than 1%**	

HEPA
filter

"HEPA" is widely recognized as one of famous guidelines of the filtration efficiency.
The filter of "HEPA" remove more than 99.75% of airborne particles of 0.3µm in diameter.

Wet & Dry Cleaners

Cordless and Corded Wet & Dry Vacuums offer maximum versatility and convenience.
These vacuums cleaners are available in 32L, 20L, 15L, 8L and 7.5L capacities.
Select from different capacity options based on your cleaning job needs

VC3211HX1 Corded Vacuum Cleaner

For Commercial and Industrial use

1050W
powerful motor

32L
dust capacity

WET & DRY

Power Control
The suction power is adjustable according to Applications or the connected power tool

Socket adapted for the tools

Flat Base
Flat base for space saving and installation of an electric power tool

Convenient storage
A dust extractor that is designed properly will offer convenient storage solutions for keeping the hoses and accessories well organized and readily available

Locking system
Durable latch of plate steel with elastomer lock lever for easy locking/unlocking operation

Durable Stainless steel tank and rage rear wheels for added mobility and stability

Blocking of wheels
Ensures the stability of the vacuum cleaner And safety of the operator in use

Automatic Self-cleaning Filtration System achieved by two filter units

Constantly high suction power throughout operation because dust is removed from Prefilters every 10 seconds during operation.
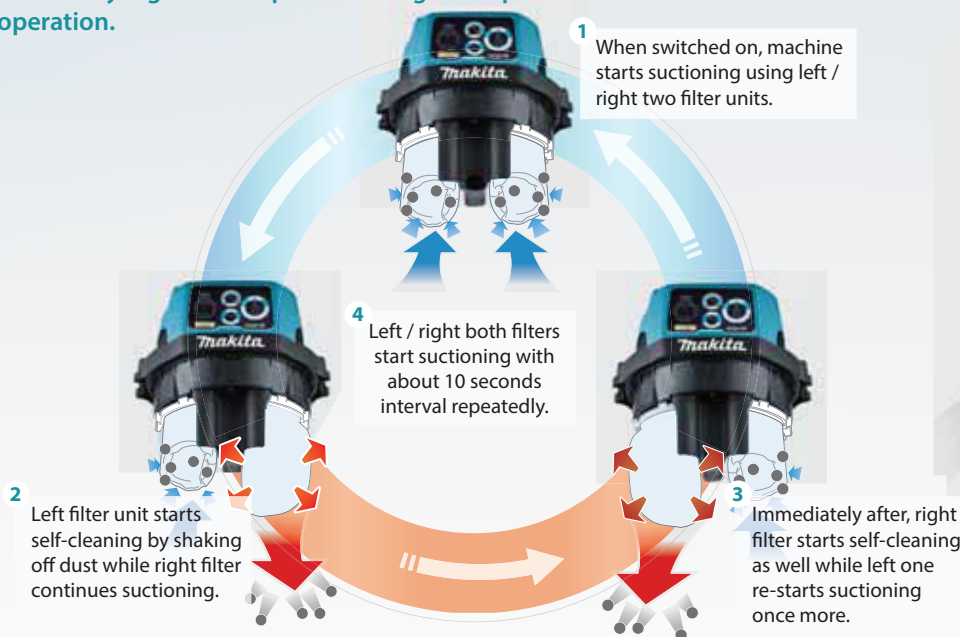

1 When switched on, machine starts suctioning using left / right two filter units.

4 Left / right both filters start suctioning with about 10 seconds interval repeatedly.

2 Left filter unit starts self-cleaning by shaking off dust while right filter continues suctioning.

3 Immediately after, right filter starts self-cleaning as well while left one re-starts suctioning once more.

GYUPPA!
Twin Filter

Specifications:-

Continuous rating input	1,050W
Max peak air flow	2.0 m³ / min
Max Sealed Suction (water column)	22.0 kPa
Tank capacity	Dust : 32 L / Water : 27 L
Dimensions (L x W x H)	552x398x685 mm
Net weight	16.9 kg
Power supply cord	5.0 m

Standard Equipment: Hose, Front Cuffs (38 ,24 ,22), Belt Hook, Hose Band, Cap, Poly bag set

VC3210LX1 Corded Vacuum Cleaner

For Commercial and Industrial use

1050W 32L WET & DRY
POWERFUL MOTOR   dust capacity

Flat Base
Flat base for space saving and installation of an electric power tool

Power Control
The suction power is adjustable according to Applications or the connected power tool

Socket adapted for the tools

Convenient storage
A dust extractor that is designed properly will offer convenient storage solutions for keeping the hoses and accessories well organized and readily available

Locking system
Durable latch of plate steel with elastomer lock lever for easy locking/unlocking operation

Durable Stainless steel tank and rage rear wheels for added mobility and stability

Blocking of wheels
Ensures the stability of the vacuum cleaner And safety of the operator in use

Automatic self-cleaning filter
obtained by Triple filter structure composed of : Powder filter + Damper + Prefilter
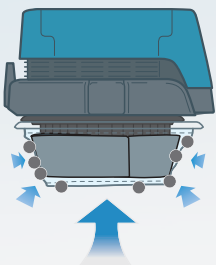

When the power is switched on, Prefilter collapses into itself to compress Damper, and fits closely over Damper and Powder filter.

When the power is switched off, Damper expands back to its original size and shakes off dust from Prefilter automatically with its expanding power.

Powder filter

Damper

Prefilter

Allows for:
Constantly high suction power
Easy filter cleaning simply by tapping dust off of Prefilter
Quiet cleaning because Damper and Prefilter make no noise

GYUPPA!

Specifications:-

Continuous rating input	1,050W
Max peak air flow	2.0m³ / min
Max Sealed Suction (water column)	22.0kPa
Tank capacity	Dust : 32L / Water : 27L
Dimensions (L x W x H)	552x398x685mm
Net weight	14.5kg

Dust Management

Makita is committed to delivering effective dust management solutions that meets customer requirements and improve their productivity and safety in the worksites. We offer wide range of products with integrated dust collection systems especially with our innovative Auto Start Wireless Function (AWS).

AWS
Auto-start wireless system

AWS utilizes Bluetooth technology for wireless power-on/off communication between tool and dust extractor. The intelligent communication between tools eliminate cords, increases productivity and reduces noise since the vacuum runs only when trigger is activated.

Dust extractor starts automatically when the tool starts. Also dust extractor stops on its own when the tool is in rest

Benefits:-
a) Extends battery run time of the dust extractor increasing productivity on a single charge.
b) Reducing continuous noise at the work site due to dust extractor will switch off automatically if the tool is not in use
c) Reduced time wasted on manually powering the dust extractor on and off.

HOW IT WORKS

1
Set the stand-by switch on the dust extractor to "AUTO" (FOR DVC864L/ DVC154L) / "Slide On" (FOR DVC265/DVC665)

2
Press the wireless activation button on the dust extractor for 3 seconds until the wireless activation lamp blinks in GREEN

3
Then press the wireless activation button on the tool until the wireless activation lamp blinks in GREEN

Also you can disengage the paired dust extractor and tools by pressing the wireless activation button on the dust extractor for 6 seconds which turns wireless activation lamp to blinks in green and then become in red. After that, press the wireless activation button on the tool in the same way

Also note that the paired wireless unit can be used with any AWS equipped machines and need not to pair again until if it is disengaged.

WATCH VIDEO

Using our cordless dust extractor with a cordless Li-ion tool means freedom of movement, reduced safety hazards and no plug-in or power issue

Multiple Connections

Can connect upto 10 AWS tools at a time with single dust extractor, just reconnect the dust hose when switching between power tools, this will reduce time wasted on manually powering multiple tools on and off

Wireless unit (Bluetooth chip) Part#: 198900-7

Wireless unit (bluetooth chip) utilizes Bluetooth technology for wireless power-on/off communication.
Please make sure the wireless unit (bluetooth chip) is inserted in the wireless unit slot on the Tool/Dust extractor before pairing.

Auto-Start Wireless Adapter - WUT02

WUT02 adapts to AC Dust Extractors VC3210LX1 / VC3211HX1 and enables wireless On/Off communication with Makita AWS tools
Part#: 199838-9 (without bluetooth chip)
Part#: 199840-2 (with bluetooth chip)

WUT02 - Auto-Start Wireless (AWS) Universal Adapter

Converts AC dust extractors compatible with AWS Equipped Power Tools

Wireless unit (Bluetooth chip)
Part#: 198900-7 (optional)

Includes an adaptable hanging hook and strap for easy attachment to dust extractors

Channel setting button is used to test the successful pairing of the tool and extractor with red light indicator if adapter is overheating or other malfunction occurs

Compatible with AC Dust Extractors that include a tool-activated power outlet

FOR MODELS
VC3210LX1 /
VC3211HX1

BENEFITS

The AWS dust extractor runs only while the AWS power tool is in use which benefits:-
- Reducing continuous noise at the work site due to dust extractor will switch off automatically if the tool is not in use
- Reduced time wasted on manually powering the dust extractor on and off

Specification

Compatible Models	VC3210LX1 / VC3211HX1 and all other cleaner with AC outlet
Dimensions (LxWxH)	400x195x132mm
Cord Length	0.8m

DVC350 Cordless Li-ion Portable Cleaner / Blower

Compact and portable suitable to use with power tools

18v LITHIUM-ION **LXT** **3L** dust capacity

Variable switch provides High/Low air volume settings to suit your application

Large 3L dust bag capacity

Equivalent to the total amount of dust by; Cutting 50 siding boards of 12mm thickness and 460mm length or Drilling 450 holes of 6.5mm diameter and 40mm depth

Standard Equipment
(Part No: 122918-6)

220mm	132025-7 (Standard Equipment)
430mm	134182-7

Anchor nozzle Part no: 192236-6
used with nozzle assembly for blower option

Shoulder belt

Can be easily slung over your shoulder for added mobility (Standard equipment)

Convenient with the cordless power tools

Concrete Drilling
(with Combination Hammer)

Concrete Cutting
(with Angle Grinder)

Wood Cutting
(with Circular Saw)

Wood Cutting
(with Jig Saw)

Specification

Max Air Flow	1.4 m³/min
Max Sealed Suction (water column)	6.0 kPa (612 mmH2O)
Continuous run time in High mode	20 min. (with BL1850B)
Recoverable capacity	Dust : 3.0 L (0.8 gal)
Dimensions (L x W x H)	273x195x226 mm
Net weight	2.4 kg

Standard Equipment: Nozzle assembly, Dust bag assembly, Hose, Shoulder Belt

Cordless Blowers

Clean-ups just got easier with Makita Cordless Blowers. Move more air with lower noise and zero emission. The power and portability of Makita Cordless Blowers make them ideal for interior clean-ups, such as movie theaters and loading docks, and exterior tasks such as cleaning stadiums and building entryways.

DUB363 Cordless Li-ion Blower with Vacuum

For demanding applications, as powerful as engine blowers

18v + 18v → 36v LITHIUM-ION **LXT** **BL MOTOR** **50L** capacity bag

Blower

Powerful brushless motor delivers provides high blowing force as powerful as engine blowers.

Vacuum

Easily converts from blower to vacuum

Precision suction power designed for fallen leaf cleanup without altering stone and rock

Dust collection bag holds up to **50L of leaves**

Cruise control function

Cruise control lever allows you to lock the variable speed control trigger at a desired power level

3-stage telescopic long nozzle with adjustment range of 100mm

Motor interlock system: The motor does not start up until the nozzle and fan cover have been properly installed

Mulcher
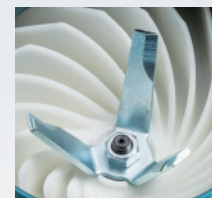

Before

After

Shredding blade

A shredding blade cuts sucked fallen leaves into fine mulch at **10:1 ratio.** (Reduces up to 10 bags of leaves down to 1 bag)

Specification

Blowing Force	14.4 N
Max Air Volume	13.4 m³/min
Max Air Velocity	65 m/s
No Load Speed	0 - 7,850 rpm
Vibration Level	Operation w/o Load (Blowing): 2.5 m/s² or less
	Operation w/o Load (Vacuuming): 2.5 m/s² or less
Dimensions (LxWxH)	w/ 3-Stage Long Nozzle: 737/786/836x193x415 mm
	w/ Vacuum Nozzle: 1,396x604x415 mm
Net weight	6.6 kg

Extension and Flat nozzle can adapt pipe#90-72

Vacuum Kit Set (Standard)
(vacuum kit set includes all the below items shown in the below picture)
191E19-1

vacuum kit also available as individual pcs as below

Vacuum nozzles

459800-9   127425-4   127502-2   Dust bag 162697-4   Shoulder belt 162698-2

Standard Equipments: *(Subject to change)*

DUB362 / DUB184 Cordless Li-ion Blowers

Powerful blowers with Low noise level construction

Ideal for clearing fallen leaves on pavement, grass and hedge clippings

18v + 18v → 36v LITHIUM-ION
Powered by 18v x 2 = 36V
LXT battery - DUB362

18v LITHIUM-ION
Powered by 18v x 1
LXT battery - DUB184

6-stage air volume/ velocity selection just by adjusting dial (Only for DUB362)

Cruise control function
Cruise control lever allows you to lock the variable speed control trigger at a desired power level (Only for DUB184)

Double housing - Low noise level construction

BL MOTOR
Brushless motor delivers high blowing force

XPT
Xtreme protection technology protects the blower from water and dust

Hole on the bottom of housing for hanging the machine

Specification	DUB362	DUB184
Blowing Force	3.7-14.4N	10.9N
Air volume	6.9-13.4m³/min	13.0 m³/min
Air speed	27-54m/s	52.1 m/s

Accessories

Long Nozzle
452123-4
(Standard)

Standard Equipments: *(Subject to change)*

Compact and ergonomic design

Ideal blowers for on job sites and in workshops

It seamlessly combines the convenience of cordless with the superior power-to-weight ratio with Makita's Lithium-Ion batteries

3-speed motor produces a maximum air velocity

18v LITHIUM-ION
Powered by 18v x 1
LXT battery - DUB185

Larger air volume has been obtained by larger air outlet (ø40mm)

12Vmax LITHIUM-ION
Powered by 12vmax
CXT battery - UB100D

Vacuum Function

Converts the blower into vacuum using (optional) dust bag

Cleaning dust/pollen on cloths

Easy sash cleaning or removal of dust or pollen from cloths using (optional) brush nozzle

Wipe out Water drops

Specially designed wiper nozzle (optional) helps to remove water drops from the objects

Specification	DUB185	UB100D

High Pressure Washers

In varying sizes, suitable for domestic, commercial and industrial use, Makita's high pressure washers are a quick cleaning solution

HW1300 / HW1200 - High Pressure Washers

Powerful, Eco Friendly, Low Vibration

Lightweight and compact, middle class power washers for home use. Ideal for routine cleaning work (car, motorcycle, garden furniture)

10 m high pressure hose for various applications
Long, superflex, scratch-proof, anti-kink

Integrated hose reel for easy storage
(only for HW1300)

On-board storage
for straightforward setup and accessory storage

Pressure adjustable function
for easy and quick control by turning the handle

High and Low Pressure Selection
(only for HW1300)
Low pressure mode enables soft washing of screen door, air conditioner outdoor unit, car, etc

Rear wheels for easy mobility

- **Powerful washing achieved with Makita-built 1,800 W series motor**
- **Self-priming function supplies water from a tank or reservoir instead of a faucet**
- **Uses up to 80% less water than a garden hose while delivering up to 50X the pressure**

Specifications:- ▣ **Double Insulation**

	HW1200	HW1300
Motor Type	Series Motor	Series Motor
Continuous rating input	1,800W	1,800W
Max Pressure	12 MPa (120 bar, 1,740 PSI)	13 MPa (130 bar, 1,885 PSI)
Max Flow Rate	420 L/h	420 L/h
Max Feed Temperature	40 °C (104 °F)	40 °C (104 °F)
High Pressure Hose Length	10 m (33 ft.)	10 m (33 ft.)
Dimensions (L x W x H)	292x358x830 mm	292x358x830 mm
Net weight	11.0 kg	12.7 kg
Power supply cord	5.0 m	5.0 m

Standard Equipment: Trigger Gun, Vario-Power Spray Lance, Cyclone jet nozzle, Detergent Bottle, Cleaner Pin, Coupling Sleeve, High Pressure Hose 10 m, Water Hose Connector, Foam Nozzle, Connector

HW131 - High Pressure Washer

13MPa (130 bar)

For sophisticated cleaning tasks at farms, in landscaping and other professional applications. Compact design, large operating range and efficient cleaning performance

Maximum Pressure	13 MPa (Max 130 bar)
Maximum Flow	500 L/hr
Induction Motor	2,3 kW 230V 50Hz
Hose Length	15m
Net Weight	33kg

Standard Equipment: Gun and Lance with Hi/Low and Pencil/fan Adjustable Nozzle, Rotopower Turbo Lance, On Board Detergent Tank, Pressure Gauge, Triplex Plunger Pump with Connecting Rod System.

HW132 - High Pressure Washer

14MPa (140 bar)

Made for frequent usage on larger, dirty or very dirty areas. Ergonomical and powerful handling. Ideal for courtyards, sidewalks, walls, facades and terraces.

Maximum Pressure	14 MPa (Max 140 bar)
Maximum Flow	420 L/hr
Induction Motor	2,1 KW
Hose Length	8m
Net Weight	15.5kg

Standard Equipment: Gun (metal type), adjustable spray lance and Detergent head

HW151- High Pressure Washer

15MPa (150 bar)

High end product for sophisticated cleaning tasks at farms, in landscaping and other professional applications. Compact design, large operating range and efficient cleaning performance

Continuous rating input	2,500W
Max pressure	15 MPa (150 bar, 2,175 PSI)
Max flow	500 L/hr
Motor type	Induction
Sound Pressure Level	80.1dB(A)
Sound Power Level	88dB(A)
Max input temperature	50°C
High pressure hose length	10m
Net weight	26.9kg

Standard Equipment: Gun (metal type), adjustable spray lance and Detergent head

127V (2pin type) Part no	197812-1
220 - 240 (2pin type) Part no	195423-6
220 - 240 (3pin type) Part no	197130-7

Power Source Kit

A combination of Makita 18V Li-ion Batteries and Charger in a Makpac connector case with moulded inlay. Makita owns the world's largest cordless tool line-up in 18V Li-ion tools and offer them in different variants i.e. 6.0Ah, 5.0Ah, 3,0Ah. Tools are also offered without battery & charger. Now pick up the Makita Power source kit, then purchase the 18V "bare tools" and you get the job done. It's an ideal way to start building a Makita cordless tool line-up. Users who preowned "Tool only version" (i.e. Tool without battery and charger) can benefit with this power source kits.

MAKPAC CONNECTOR CASE

MULTI PORT CHARGER

Maximum air flow may differ due to the type hose used with the cleaner

Note

• Makita reserves the right to change specifications of parts and accessories without notice.

• Items of standard equipment and specifications may vary by country or area.

• Net weight and dimensions may differ by the type of battery.

• Standard export color for motor housing is Makita industrial green (blue).

• Please state required voltage when ordering. These offers are subject to availability in each country. Actual product color may differ slightly from color reproduced here.

• Weight data in this catalogue is the value measured by us according to EPTA Procedure.

Guarantee

Every Makita tool is thoroughly inspected and tested before leaving the factory. It is guaranteed against defective workmanship and materials. Should any trouble develop, return the COMPLETE tool prepaid to Makita or point of purchase. If inspection shows trouble is caused by defective workmanship of material, all repairs will be made without charge. The guarantee does not apply where repairs have been made or attempted by others; repairs are due to normal wear; the tool has been abused or in an accident; misuse is evident – caused by overloading the tool beyond its capacity, use of the tool after partial failure or use with improper accessories.
